About Communicating for America

For more than 40 years, Communicating for America (CA) has been providing benefits, services and healthcare advocacy for individuals and families. In that time, CA has grown from an organization of the self-employed in rural communities to a nationally known and well-respected association of individuals and families, representing both main street America and metropolitan cities throughout the country.

CA was founded on the idea of power in numbers – one common voice coming from people who work hard every day to make their own way in this world. That powerful voice means individuals can obtain benefits and services they wouldn't normally have access to, and have a representative advocating for them on health care, taxes and small business laws.

CA's goals and mission

- To deliver valued member benefits at the best price and of the highest quality
- To promote the health, well-being and advancement of all self-employed Americans and small business owners by leveraging our acquired experience
- To give members the right and opportunity to set policies and goals

CA's endorsement

CA can negotiate deals on great services and products using the power of the people we represent. The CA endorsement requires that specific quality, financial and service criteria be adhered to in order to meet the needs of CA members.

CA-endorsed benefit providers must supply:

- Service capabilities of the highest standards
- Toll-free customer service lines
- Plans that meet the needs of self-employed Americans
- Proven financial strength

Healthcare advocacy

CA continues to work on common-sense issues that affect the lives of all Americans. With the launch of federally mandated health insurance, CA has made a commitment to assist members navigating the insurance marketplaces in state exchanges, the federal marketplace and in the private marketplace.
